

UNIQUE TRIPHASE FORMULA

CREADRENE[®]

TRIPHASE CREATINE 5000MG

Creatine Tri-Phase is one of the most effective creatine formulations on the market. It allows you to avoid the aggravation of having to mix powder without giving up any of the benefits.

CREADRENE®

TRIPHASE CREATINE

5000MG

CREADRENE® is the equivalent of 1 serving of creatine powder in just 3 convenient tablets

Creatine Tri-Phase is one of the most effective creatine formulations on the market. The equivalent of 1 serving of creatine powder in just 3 convenient tablets... and, from 3 different creatine sources!

Three Coated Tablets Provide:

CREATINE MONOHYDRATE4800 MG

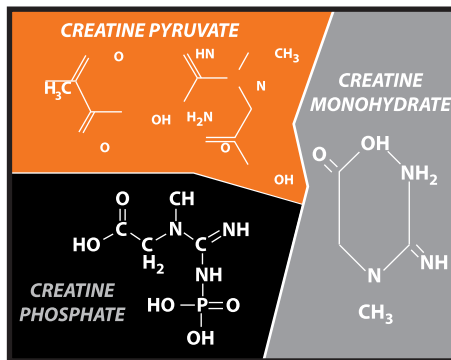

Supplementing the body with creatine monohydrate helps saturate muscle tissue with stores of creatine helping to increase stamina and decrease recovery time.†

CREATINE PYRUVATE190 MG

Creatine Pyruvate provides a form of creatine that is bound to pyruvic acid. Once ingested, hydrochloric acid in the stomach splits the creatine and pyruvic acid into their ionic forms which allows each to be readily absorbed into the bloodstream.

CREATINE PHOSPHATE10 MG

Creatine Phosphate is the compound that directly replenishes ATP†
