# Striagen®-DS

(Myotrixyline 17% Komplex)

Introducing a new and revolutionary anti-aging skin care treatment that competes with the effectiveness of cosmetic injections but without the associated risks, high costs or painful procedures.

Responding to the growing demand for alternatives to botulinic toxin (cosmetic facial injections) and cosmetic surgery, Newton-Everett® Cosmeceuticals has developed Striagen®-DS - Targeted Anti-Aging Dermal Therapy.

Striagen®-DS contains new and unique peptides that have shown to both reduce the degree of existing facial wrinkles, as well as protect against their development.

## 7 reasons why you need Striagen®-DS:

- 1 You do not want to have cosmetic surgery or get cosmetic injections.
- 2 You want a product that provides the latest in anti-aging ingredients.
- 3 You want a quick anti-wrinkling and lifting effect for immediate and visible results.
- 4 You want to reduce the degree of your existing facial wrinkles.
- 5 You want a product that will biologically slow the aging of skin cells.
- 6 You want immediate tightening of the skin and a long term tightening effect.
- 7 You want a product that you can also use to help repair stretch marks and scars.
