Introducing the new VIALAFIL-CR® Sexual Enhancement Gel from Newton-Everett Biotech®.

VIALAFIL-CR provides naturally occurring nutrients and compound extracts directly to the area of application via a revolutionary transdermal delivery system. The VIALAFIL-CR transdermal delivery system will provide an increase in area tissue engorgement, and a reduced occurrence of premature ending.

Designed as a topical lotion, VIALAFIL-CR is a fast acting solution formulated to increase blood flow and circulation to the male sexual organs. VIALAFIL-CR is applied directly to the "source" where its vasodilation properties immediately activate and invigorate the sexual senses. Its soothing and lubricating effects will instantaneously delight any man wanting to add a spark to his sexual experience. VIALAFIL-CR will help you achieve a more satisfying sex life.
