Senstra™

Lotion for Women

SENSTRA™ is a topical cream used to increase female sexual sensation, arousal, pleasure, and satisfaction when topically applied to the female genitalia.

Most women's challenges with arousal and sexual response are due to insufficient blood flow in the genital area. Senstra™ will not only increase a woman's sensitivity, but it also stimulates natural vaginal lubrication; thus correcting one of the most significant issues hampering women's enjoyment of sexual intimacy.

Benefits of SENSTRA™ Lotion:

- Increase sexual responsiveness
- Enhance intimacy
- Stimulate arousal
- Improve sensitivity
- Increase vaginal lubrication
- Benefits for men as well
- Proven effective
- 100% safe
- Natural active ingredients
- Ph balanced
- No dangerous side effects
- Hygienic packaging

Senstra™ causes increased blood flow instantaneously to the genitalia, which, with manual stimulation has shown to allow women to experience an orgasm. Also, the natural-occurring estrogens and hormonal precursors increase vaginal moisture.
