# ISOTROPIN<sup>®</sup> TONE

**ISOTROPIN<sup>®</sup> TONE** for both Men and Women, a revolutionary formula for body sculpting.

ISOTROPIN<sup>®</sup> TONE is designed for any one who wants to enhance their muscle definition. It is formulated to contour and redistribute fat, tone and shape muscles and enhance sharpness of muscle definition to give a cut appearance. ISOTROPIN<sup>®</sup> TONE also helps to increase muscle and decrease small pockets of fat and cellulite. ISOTROPIN<sup>®</sup> TONE assists in sculpting the muscles, allowing skin to appear smoother reducing the appearance of sagging skin.

#### Features and benefits:

- Excellent for Men & Women
- Provides Excellent Body Sculpting Nutrients
- Promotes Body Fat Reduction
- Supports the Body in Exercise Recovery
- Promotes an Increase in Energy Function
- Supports Healthy Circulation & Heart Health

One of the factors in ISOTROPIN<sup>®</sup> TONE that assists in creating definition is the HGH (Human Growth Hormone). The homeopathic, recombinant HGH helps to modify fat levels and tone and define muscles. The L-Arginine helps the body to reduce fat, increase muscle tone, and increase overall circulation. These and other ingredients provide a range of benefits necessary for body sculpting.

Somatotrophin (HGH) 3C, Cervi Cornu 6C, L-Arginine 3C, Lecithin 3C, B-Vitamins 3C, Inositol 3C, Choline 3C, Zinc 3C, All Glandular Tissues 6X/30X, Cell Minerals 6X/12X/30X, All Amino Acids 10X/30X, CoQ10 12X, All Krebs Cycle 12X/30X, RNA-DNA 30X/100X, DHEA 3C, Calc.
